THE MISSION OF AAID IS:

**TO STOP DEATH AND INJURY DUE TO
IMPAIRED DRIVING,**

**TO ASSIST THE VICTIMS WHOSE LIVES HAVE
FOREVER BEEN CHANGED BY SOMEONE
ELSE'S IRRESPONSIBLE CHOICE OF**

DRIVING IMPAIRED

**AND BY EDUCATING, LEADING AND GUIDING
THE ATTITUDES AND CHOICES OF OUR
UNDERAGE YOUTH TO ABSTAIN FROM
USING DRUGS AND ALCOHOL**

ADVOCATES AGAINST IMPAIRED DRIVING, INC. was founded on December 5, 2005 by long time Anti-Drunk Driving Activist Marie Greger-Smith, along with other volunteers, concerned citizens and victims. Marie has been an activist for 21 years as well as a Victim Advocate helping drunk driving victims for 17 years.

Her mother was killed 2.2 miles from home where Marie still lives today. She was 11 years old when her mother was killed Friday July 13, 1961. Her childhood and life was changed forever all because someone decided to drink and drive.

Marie has been injured twice by drunk drivers in 1974 and 1977. Her passion and drive to stop impaired driving is not only because it has touched her life so much but because she does not want other families to have to go through the heartache her family did.

Sharon Brown, Assistant Treasurer lost her father a Grant County Deputy Sheriff on December 15, 1974 because of a drunk driver.

Wanda Jacobson, Vice President was injured on December 24, 1976, By a drunk driver.

Lisa Jones, Secretary, Husband Former Marion County Deputy Mike Jones was injured on April 12, 1993, by a drunk driver.

Keith Hoff, Treasurer concerned citizen wanted to help stop impaired driving.

AAID wants to save lives by removing ALL impaired drivers, from our roadways weather it is legal drugs, illegal drugs or alcohol. We believe that our organization is what Indiana needs to make it safe for our children, families, friends, and law enforcement officers.

In the United States, the National Highway Traffic Safety Administration (NHTSA) compiles and publishes the various statistics on American drivers. Some of these statistics include; Number of Fatalities, Economic Cost of Motor Vehicle Traffic Crashes, Fatalities in Alcohol-related Crashes, Passenger Vehicle Occupant Restraint Use Rates, Speed Related Crashes, etc. AAID takes the statistics related to Impaired Driving and uses them to educate, to influence legislative change, and to always be cognizant of the impact of Impaired drivers on innocent drivers, passengers, and pedestrians.

The latest annual statistics published by NHTSA are for CY 2004. The statistics applicable to Indiana are as follows:

Total Traffic Deaths in Indiana 947
Fatality Rate per 100K Population: 15.18
Percent of 2004 Fatalities
Involving a
.08+ BAC driver 25%
Total Alcoholic deaths in Indiana 299

Across the United States, Alcohol-related traffic fatalities represented 39% of all traffic fatalities and 7% of all crashes in 2004. This translates as approximately 1 fatality every 31 minutes.

In 2003, 1.4 million drivers were arrested for driving under the influence of alcohol or narcotics. This is an arrest rate of 1 for every 135 licensed drivers in the United States (2004 data not yet available).

It should be recognized from the above information and facts, that Impaired Driving is a significant problem and that AAID is a critically needed organization committed to ensuring that Indiana's citizens are educated, informed, and protected from Impaired Drivers.
